Type: ROUTINE INSPECTION
Date: 07-DEC-2015

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

*** Two spaniels identified as "Rover" #A01643729 and "Misty" #04902031457 had ears that were dirty with an odor and need to be cleaned. Ears that are dirty can lead to ear infections or yeast infections and need to be cleaned on a regular basis to prevent this from occurring.

*** In addition both these dogs "Rover" #A01643729 and "Misty" #04902031457 have heavily matted ears that need to be groomed. Heavily matted ears are painful because the fur pulls and separates from the skin which can also cause skin irritations. These ears need to be groomed on a regular basis to prevent this and for the health of the dogs.

Correct by: Dec 11, 2015

3.6(c)(2)

PRIMARY ENCLOSURES.

*** The outside runs are divided by wire mesh sides where the dogs have view of each other. Two female Sheba's housed next to each other are very aggressive towards each other and are fighting and running at each other along the mesh. The licensee states that have done this for a while. These dogs should not be housed directly next to each other because this constant fighting can cause additional stress on the dogs.

Correct by: Dec 11, 2015

3.11(b)(2)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

*** Most of the feeders had a layer of grime and debris underneath the lip of the feeder. These feeders need to be cleaned more frequently to reduce this grime and for the health of the dogs.
