DIANE SANDERS & JEFF SANDERS

Type: ROUTINE INSPECTION

Date: 01-MAY-2018

### 3.129(b)

#### FEEDING.

At time of inspection there was a heard of at least 14 goats of various sizes and ages in one enclosure. Three of the goats had a thinner body condition than the other animals. Feeding of hay to the goats was observed. All of the hay is placed in one corner of the enclosure. Therefore, not all of the goats could access the hay because of the location of feeding and dominant animals were preventing others access to the hay. Food must be located so that it is accessible to all animals to ensure that they receive adequate nutrition. Licensee must ensure that the food is located so as to be accessible to all animals in the enclosure.

\* To be corrected by 5/2/2018

This inspection and exit interview were conducted with Facility Representative.

#### Additional Inspectors

Plumlee Konnie, Supervisory Animal Care Specialist
