### **ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).**

At the Pleasant Hill site it was discovered that an expired vial of Ketamine (Lot # 111211A), internally identified as vial # 14, expiration date Nov 2014) had been used to provide anesthesia for three different animals / procedures in December, 2014, before the notation on 12/5/14 "Discard - Expired".

Steps should be put into place to ensure the verification of quality / expiration date prior to use or need of all drugs to be used on animals. Expired drugs should be clearly labeled and / or removed, so that they are not accidentally employed. The use of expired drugs could negatively impact the health and well-being of the animals.

This is a repeat citation, cited previously at the San Leandro campus on 1/22/14.

The inspection was completed at the San Leandro and Pleasant Hill campuses.

An exit interview was completed with a facility representative at each location.
