Type: ROUTINE INSPECTION  
Date: 24-FEB-2025

---

### 3.13(b)(3)

#### Veterinary care for dogs.

There were no current records listing the date and name of the last deworming treatments that the adult dogs received. Licensee stated that he follows a deworming schedule for the male and female adult dogs, but that he did not have a current list of deworming treatments. Failure to record the dates and names of all treatments makes it difficult to access whether the written program of veterinary care is being followed as prescribed by the attending veterinarian and that dogs are receiving preventative care to prevent health risks. Correct by March 3, 2025.

This inspection and exit interview were conducted with the licensee.
