Granby, MO 64844

Customer ID: **20164**  
Certificate: **43-A-4843**  
Site: 001  
LYNN SARTIN

Type: ROUTINE INSPECTION  
Date: 07-MAY-2014

### 2.40(b)(2) DIRECT

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

(b) Each dealer or exhibitor shall establish and maintain programs of adequate veterinary care that include (2)  
\* Direct -There was a brown adult dog named "Sugar" that was not carrying weight on her left hind leg. On top of her foot there was a red swollen area of skin that did not have hair. The animal had not received treatment for the condition. Limping indicates that the animal's leg may be painful to walk on and red, swollen tissue can indicate an infection. The licensee shall have the dog seen by a licensed veterinarian to obtain a written diagnosis and treatment plan and shall provide care as prescribed. The licensee shall make record of the treatment provided in the animal's health records. TO BE CORRECTED BY THE CLOSE OF BUSINESS: 5/9/14

There were at least two adult dogs at the facility that had long, unkempt hair coats with loose matts. These dogs had facial hair that covered their faces so that you could not see their eyes. Unkempt hair coats and matted hair can be irritating to the dogs and may lead to complications of the skin and eyes. The licensee shall provided adequate veterinary care which includes routine grooming with a proactive approach that prevents matts from forming. TO BE CORRECTED BY:5/14/14

### 3.1(b)

#### HOUSING FACILITIES, GENERAL.

(b) Condition and site.

The licensee is raising ducks and geese in enclosures of the 2nd sheltered facility. The 15 birds are sharing the same air space and wash downs as the adult dogs housed in the facility. Additionally, the enclosures housing the birds, the wash downs below them and all of the surfaces surrounding it are covered in bird waste. Birds are a disease hazard as well as a cleanliness issue. The licensee shall remove the birds from the facility and keep all other business separate from the dog facility. TO BE CORRECTED BY: 5/9/14

### 3.1(d)

#### HOUSING FACILITIES, GENERAL.

(d) Water and electric power.

Prepared By: KELLY ROBERTS, A C I USDA, APHIS, Animal Care

07-MAY-2014

## Inspection Report

---

The water lines in the second sheltered housing facility are broken and the facility no longer has running water. The licensee stated that the water pipes froze and broke in mid March 2014. The licensee is currently transporting water into the facility to water and clean. The licensee shall ensure the housing facility can provide adequate running potable water for the dogs' drinking needs, for cleaning, and for carrying out other husbandry requirements. TO BE CORRECTED BY: 5/14/14

### 3.1(f)

#### HOUSING FACILITIES, GENERAL.

(f) Drainage and waste disposal.

There was a dead puppy in the 1st sheltered facility. The licensee stated that the puppy had passed away the previous day and was still in an enclosure during the inspection at 2pm the following day. Dead animals are a disease hazard for the animals in the facility. The licensee shall promptly remove dead animals in a manner that minimizes contamination and disease risks. TO BE CORRECTED BY: 5/8/14

### 3.4(b) DIRECT

#### OUTDOOR HOUSING FACILITIES.

(b) Shelter from the elements.

There were two adult, chocolate Labrador Retrievers in outdoor enclosures that did not have shelters or any source of shade. The outdoor temperatures were 84 degrees at 2pm. Both of the dogs were panting heavily. Adequate shelter is necessary to protect the animals from the elements. The licensee shall provide one or more shelter structures that are accessible to each animal in each outdoor facility, and that are large enough to allow each animal in the shelter structure to sit, stand, and lie in a normal manner, and to turn about freely. In addition to the shelter structures, one or more separate outside areas of shade must be provided, large enough to contain all the animals at one time and protect them from the direct rays of the sun. Shelters in outdoor facilities for dogs or cats must contain a roof, four sides, and a floor.

\* TO BE CORRECTED BY: 5/7/14 The licensee was directed to provide shade and shelters immediately following the inspection( materials were on site.)

### 3.11(d)

#### CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

(d) Pest control.

There is evidence of rodents in the first sheltered facility. There were droppings along the base of the floor, in the wash downs and in spare feeders. Rodents can transmit disease. The licensee shall incorporate an effective pest control method to remove pests from the facility. TO BE CORRECTED BY: 5/21/14
