Wellsburg, IA 50680

Customer ID: **326574**
Certificate: **42-C-0236**
Site: 001
Rodney Stahl

Type: FOCUSED INSPECTION
Date: 13-OCT-2016

2.1(a)(1)

REQUIREMENTS AND APPLICATION.

The facility was open and operating with animals on exhibit at the time of the focused inspection. There was admission signs, staffing, and engaged public present.

Doing regulated activity without a valid license does not ensure the safety of the animals or the public. The owners must have a valid USDA license before continuing exhibition of regulated animals. Continuing regulated activity without a current and valid license is a violation of the Animal Welfare Act.

2.131(c)(1) CRITICAL

HANDLING OF ANIMALS.

There are no barriers other than the primary enclosure fence for any of the animal enclosures. A bite occurred by the young male camel "Humphrey" to a patron on October 1, 2016.

The lack of barriers or safe distances from the animals can cause injury to people and animals. During public exhibition, any animal must be handled so there is minimal risk of harm to the animal and to the public, with sufficient distance and/or barriers between the animal and the general viewing public so to assure the safety of the animals and the public.

2.131(d)(2) CRITICAL

HANDLING OF ANIMALS.

There were no attendants at any of the animal enclosures. A bite occurred by the young male camel "Humphrey" to a patron on October 1, 2016.

Public contact without supervision of an attendant can allow harm to happen to the animals and the public. A responsible, knowledgeable, and readily identifiable employee or attendant must be present at all times during periods of public contact.
