Customer ID: **3953**
Certificate: **73-C-0002**
Site: 001
OKLAHOMA CITY ZOO

Type: ROUTINE INSPECTION
Date: 30-JAN-2014

This is a focused inspection on the commissary/feeding reported on the Jan. 8, 2014 inspection report.

**** The commissary had fly strips over the stainless steel food preparation tables. The fly strips have been moved and are no longer over the food preparation table.

**** The walk in refrigerator in the commissary had moisture dripping from a pipe at the back of the unit. This condensation could act as a source of contamination of food. The refrigerator unit now has tape around the pipe and a catch tray welded under the entire unit to prevent food contamination from condensation.

Inspection and exit interview conducted with facility representative.
