3.14(c)

Consignments to carriers and intermediate handlers.

One adult large breed dog arrived at SFO on Qatar flight 737 from Qatar. The dog originated from Qatar on waybill 44294784. The crate did not have a consignor's certification regarding feeding and watering displayed on the shipping crate. Failure to provide this information stating when the animal was last offered food and water, and instructions for feeding and watering during transport, could put the animal at risk. Carriers must not accept a dog or cat for transport unless the consignor certifies in writing that the dog or cat was offered food and water during the 4 hours before delivery. The certification must be securely attached to the outside of the primary enclosure in a manner that makes it easily noticed and read. The certification must include the time and date the animal was last fed and watered and specific instructions for feeding and watering for a 24 hour period.

This inspection and exit interview were conducted with a facility representative.
