2.31(b)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

At time of inspection, current appointment letters for the IACUC were not available. The appointment letters on file expired in February of 2014. According to a facility representative, there has not been any covered animals or activities conducted at the facility in the past year.

Without current appointment letters, we cannot verify the facility has an IACUC in place.

It is the responsibility of the Chief Executive Officer of the research facility to appoint an IACUC to assess the research facility's animal program, facilities, and procedures. A system should be in place to ensure appointment letters are updated as needed to reflect the current IACUC membership.

To be corrected by September 15, 2014

An exit briefing was conducted with the facility representative.
