Certificate: **93-R-0382**

Site: 002

PHOENIX PHARMACEUTICALS,
INC.

Type: ROUTINE INSPECTION

Date: 06-MAR-2023

2.31(b)(2)

Institutional Animal Care and Use Committee (IACUC).

The CEO of the facility has failed to appoint a new IACUC chairman since the last chairman retired at the end of last year. With a required IACUC position unfilled, there is not a properly constituted IACUC. An improperly constituted IACUC cannot perform the functions required by the Animal Welfare Act. The members of the IACUC committee shall be appointed by the CEO and be composed of a Chairman and at least two additional members.

Correct by April 7th 2023

2.31(c)(1)

Institutional Animal Care and Use Committee (IACUC).

The last facility program review by the IACUC was performed 4/13/22. It is essential that this program review be conducted every 6 months in order to ensure the humane and judicious use of animals by the facility. The IACUC shall review, at least once every six months, the research facility's program for humane care and use of animals.

Inspection Report

Institutional Animal Care and Use Committee (IACUC).

The last facility review by the IACUC was performed 4/13/22. It is essential that the IACUC conduct a facility review every 6 months in order to ensure humane and judicious use of animals by the facility. The IACUC shall inspect, at least once every six months, all of the animal facilities including animal study areas.

Corrected by 4/6/23

2.33(b)(3)

Attending veterinarian and adequate veterinary care.

The facility acquired rabbits approximately 2 weeks prior to the IACUC meeting on 2/15/23. The Attending Veterinarian(AV) was under the impression that studies involving rabbits were not planned in the future, and was unaware that the study plan had changed until arriving at the facility for the IACUC meeting. The lack of communication between the facility and the attending veterinarian could result in an inability to recognize, diagnose, and treat diseases or injuries. A mechanism of direct and frequent communication is required so that timely and accurate information on problems of animal health, behavior, and well-being is being conveyed to the attending veterinarian.

Correct by March 21, 2023.

This inspection and exit interview were conducted with facility representatives.
