3.127(c)

FACILITIES, OUTDOOR.

*** The wolf enclosure has a significant amount of water pooling by the guest fence line. The wolves are continuously running through the water in a pacing manner and were wet with some hair loss in the tail area. This pooling of water needs to be addressed through methods of adequate drainage to rapidly eliminate this excess water.

Correct by: June 28, 2019

This inspection and exit interview were conducted with a facility representative and the zoo director.
