Certificate: **58-B-0612**
Site: 001
Shaylynn Kolwyck

Type: ROUTINE INSPECTION
Date: 20-SEP-2023

2.40(b)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The current program of veterinary care does not account for the facility's 2 kookaburra. A program veterinary care is required to demonstrate adequate veterinary care is being provided to the animals through attending veterinarian oversight of health care and husbandry. Correct by ensuring that the program of veterinary care includes all regulated animals at the facility, that the attending veterinarian is given adequate authority for their care by formal arrangement, and that the document is available for inspection by APHIS officials. Correct by 10/20/2023.

3.154

Environment enhancement to promote psychological well-being.

At the time of inspection, an environmental enhancement plan for birds that documents the appropriate provisions to provide enrichment and special considerations and is approved by the attending veterinarian has not been developed by the facility. This plan is necessary to ensure the psychological well-being and health of the animals. The facility must ensure that a documented plan for environmental enhancement that addresses the required elements approved by the attending veterinarian is maintained and available for inspection. Correct by 10/20/2023.

This inspection and exit interview were conducted with the facility representative.
