Type: RE-LICENSE INSPECTION  
Date: 10-APR-2025

---

### 2.40(b)(3)

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

On April 5th, 2025, a female adult cavalier dog, identified #021, was found deceased, but this finding was not reported to the Attending Veterinarian. As such, a necropsy or other follow-up guidance was not provided. The facility reports there were no overt signs of illness or injury prior to death or upon discovery, nor is there any such indication in facility records; no other animals were affected. Failure to provide timely information regarding animal health and welfare to the Attending Veterinarian may compromise oversight of veterinary care. As such, the facility must assure the Attending Veterinarian is alerted to this issue and must continue to provide for frequent and direct communication of welfare information to the Attending Veterinarian.

This is a 1st Re-License Inspection for a Class "A" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by June 9, 2025 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
