Site: 001

NEW MEXICO WILDLIFE ASSOC.

Type: ROUTINE INSPECTION
Date: 17-APR-2018

3.125(a) REPEAT

FACILITIES, GENERAL.

Along the backside of the outdoor enclosure housing 2 adult mountain lions named "True" and "Zia" the upper fence extension is no longer securely attached to the primary fence along three panels. This is creating multiple gaps at the junction of the two fences. These gaps are large enough that if an animal jumps on the fence, it could reach through the gap and injure itself or potentially escape.

Construct and maintain all facilities so that they are structurally sound and in good repair to protect the animals from injuries.

This inspection and exit briefing were conducted facility representative.

Additional Inspectors

Kjos Jeanne, Veterinary Medical Officer
