### **Environment enhancement to promote psychological well-being.**

The facility does not have a written program for environment enhancement for their turkeys, quail, and peafowl. A facility representative has been providing the birds with regular enrichment opportunities, however, a documented program has not been developed.

A written plan for environment enrichment is necessary to ensure the psychological well-being and overall health of the birds.

Exhibitors must develop, document, and follow a species- appropriate plan for environment enhancement adequate to promote the psychological well-being of birds. The plan must be approved by the attending veterinarian and must address social grouping, environmental enrichment, special considerations, and exemptions.

Correct by: December 7, 2023.

This inspection and exit interview were conducted with a facility representative.
