### 3.158(a)(1)

#### Cleaning, sanitization, housekeeping, and pest control.

- Both rooms of the facility had a heavy accumulation of cobwebs and associated debris along the edges of the rooms, and in certain spots on the ceiling directly above bird cages. The cobwebs contained dirt, debris and insects. This is a potential source of contamination to the animals below this material. The facility must clean in and around enclosures as often as necessary to protect the welfare of the animals.  
Corrected at the time of inspection.

This inspection and exit interview were conducted with licensee.
