3.125(a)

Facilities, general.

The shed in the pen housing 12 goats, 1 yak, and 3 fallow deer has two large gaps at ground-level. Each gap, one on either side of the shed opening, is approx 1ft x 1ft and these gaps have multiple sharp edges resulting from broken wood bordering the openings.

Outdoor housing facilities need to be structurally sound and maintained in good repair. Failure to do so can lead to injury of the animals if the animals get caught up in these gaps or on a sharp piece of wood. Correct by repairing the gaps in the shed and maintaining it in good repair.
