Customer ID: **34479**
Certificate: **48-B-0302**
Site: 001
Mary Carpenter

Type: ROUTINE INSPECTION
Date: 09-OCT-2014

3.11(b)(2)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

* A mixture of dried dirt, grease and other excreta was observed on three plastic dog igloo shelter houses and along the bottom of an estimated six sheets of tin. Three dogs are in contact with the affected surfaces which are located in outdoor housing. The affected area covers approximately 20 to 30 percent of the plastic igloo shelter structures and 15 to 20 percent of the sheet tin located on the east side of the enclosure. Sanitization of surfaces is necessary to prevent an accumulation of dirt, excreta and other disease hazards. Unsanitary living conditions and potential transmission of diseases exists when surfaces are not cleaned and sanitized. The licensee must ensure that all surfaces are cleaned and sanitized at least once every two weeks or more often if needed. Correct by 10/23/14.

* The facility inspection and exit briefing done on 10/9/14 were conducted with the licensee.

* Copy of inspection report was sent by certified and regular mail.
