Certificate: **74-C-1053**

Site: 001

JOHN DERRELL DAVENPORT ZAIRA DAVENPORT

Type: ROUTINE INSPECTION

Date: 19-SEP-2016

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

A Program of Veterinary Care was not available for review at the time of this inspection. Licensees with part time attending veterinarians must have a formal written arrangement with a veterinarian (PVC) that addresses the preventative care for all regulated species. This is required so that USDA personnel can confirm that the licensee is working with a knowledgeable veterinarian and is following the recommendations from that veterinarian.

A program of veterinary care needs to be developed by the attending veterinarian that addresses the regulated species at this facility.

Topics that should be covered in the PVC include but are not limited to:

- *The veterinarian's schedule for visits to the facility.
- *Parasite control program
- *Vaccination recommendations
- *Dental plan
- *Diets
- *Pest control program
- *Any other medical/husbandry recommendations the veterinarian feels necessary for this facility.
- *Emergency contact information.

The PVC must be signed and dated by the attending veterinarian. This document must indicate to USDA representatives that the licensee and the veterinarian have an active working relationship. A copy of the PVC should be available for review during USDA inspections.

This inspection and exit interview were conducted with the licensee.

All items must be in compliance within 2 more inspections or by Dec 19, 2016 or applicant will forfeit application fee
