Type: ROUTINE INSPECTION
Date: 07-OCT-2015

2.75(b)(1) REPEAT

RECORDS: DEALERS AND EXHIBITORS.

*** Eight dromedary camels and two Bacterin camels are present for this inspection. The dromedary camels have not been assigned identification. There is no disposition record for one Bacterin camel that was present at the last inspection. The records of animals on hand must accurately identify the animals on property. An accurate list of animals currently on hand must be maintained to properly track the acquisition and disposition of both dromedary and bacterin camels. A system for tracking these camels, and all subsequent acquisitions and disposition of camels, must be established and maintained to facilitate the enforcement of the regulations of the Animal Welfare Act.

3.131(c) REPEAT

SANITATION.

***The decorative board fencing along the tree line of the enclosure has detached boards and is in disrepair. The wire panel fencing and gates along the tree line are loosely attached. Premises shall be kept in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in this subpart. The fence needs to be removed or replaced to protect the animals from injury.

An exit briefing was conducted with the facility representative.
