Arba K Jett
449327 U S Hwy 64
Vian, OK 74962

Customer ID: **26102**
Certificate: **73-A-2089**
Site: 001
ARBA K. JETT

Type: ROUTINE INSPECTION
Date: 09-DEC-2014

3.1(a)

HOUSING FACILITIES, GENERAL.

The divider panels of 2 pens on the concrete kennel area housing cavalier type dogs, the bottom square tubing of the panels has rusted and flaked away. This does not hold the horse panel solid, and allows the panel to move when dogs jump on the panel. This affects 4 pens of dogs.

The flaking and rusting metal may result in sharp points and edges which are a potential source of injury to the enclosed animals. The rusted areas need to be repaired or replaced and properly maintained in the future.

To be corrected by December 27 2014

Exit interview conducted with facility representative at time of inspection.
