### 2.40(b)(2)

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

At the time of inspection, there is an expired bottle of PancreVed in the African Wild Dog holding area. The supplement expired on 3/3/2023; however, according to the treatment sheet, it is still being administered twice daily to the African Wild Dog named "Livingstone". The facility discarded the expired supplement during the inspection.

The use of expired medications is not considered to be a safe or appropriate method to prevent, control, diagnose, and treat diseases and injuries since the expected results cannot be guaranteed. The facility must ensure the use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries.

To be corrected by March 17, 2023.

This inspection and exit interview were conducted with facility representatives.
