3.154

Environment enhancement to promote psychological well-being.

The licensee is missing a complete environmental enhancement plan for birds. They have an extensive written enrichment program for all species, but it lacks some of the required components for the birds including: social grouping, special considerations, and exemptions. Additionally, the plan must be approved by the attending veterinarian. A species appropriate plan for environmental enhancement is necessary to promote the psychological well-being of birds. Correct by 10/27/23.

This inspection and exit interview were conducted with the facility representative.
