115 MILL STREET
BELMONT, MA 02478

Customer ID: **146**
Certificate: **14-R-0096**
Site: 001
MC LEAN HOSPITAL

Type: ROUTINE INSPECTION
Date: 30-AUG-2023

2.31(c)(7)

Institutional Animal Care and Use Committee (IACUC).

An IACUC approved protocol indicates that animals could be expected to experience loss of up to 10% body weight while enrolled on procedures that include food scheduling. On review of records at the time of inspection, it was discovered that one animal had lost 13% of its body weight as of June 2nd, 2023 while enrolled on a food scheduled procedure under this protocol. The attending veterinarian was not notified and the animal was maintained on study.

Deviation from the monitoring parameters described in the protocol can compromise the ability of research and veterinary personnel to respond to potential problems of animal health and wellbeing and constitutes a significant change that did not undergo IACUC review and approval.

Any activity involving the care and use of animals must be conducted as approved by the IACUC, and any significant change in ongoing activities regarding the care and use of animals must be reviewed and approved by the IACUC prior to being instituted.

To be corrected from September 1st, 2023 forward.

This inspection and exit interview were conducted with facility representatives.
