Certificate: **58-C-0942**

Site: 001

KOWIACHOBEE ANIMAL PRESERVE INC

Type: ROUTINE INSPECTION

Date: 12-JUL-2016

3.125(a) REPEAT

FACILITIES, GENERAL.

The fencing for the new primary enclosure housing the Subaliczar and lion Shaumbay does not have enough height to contain these animals. The height of resting platform to the top of the enclosure is approximately 10' and less than 10' from the top of the fencing. These large felids are several years old and there is evidence that large felids can escape enclosures with heights of 12'.

Outdoor housing facilities shall be constructed to contain the animals.

This non compliance was cited during the inspection on May, 23, 2016, with a correction date of June 16, 2016.

This inspection and exit interview was conducted with the licensee.
