POLSKIE LINIE LOTNICZE

Type: ROUTINE INSPECTION

Date: 02-FEB-2022

2.131(e) Critical

Handling of animals.

On January 21, 2022, LOT Polish Airlines transported a young dog, born on May 1, 2021, according to the documentation, to JFK on AWB 080-36085943. Upon departing at 17:08 from Warsaw, Poland, the local temperature was 32 degrees Fahrenheit according to Warsaw, Poland weather history. Upon arrival into JFK on January 21, 2022, the dog was dead.

According to a necropsy report dated March 30, 2022, the cause of the dog's death was diagnosed as pneumonia. According to the necropsy report, due to severity of the disease in the lungs, pneumonia would have started prior to the flight and resulted in respiratory distress. An animal may never be subjected to any combination of temperature, humidity, and time that is detrimental to the animal's health or well-being, taking into consideration such factors as the animal's age, species, breed, overall health status, and acclimation.

This inspection and exit briefing were conducted with facility representative.
