401 Professional Dr., Suite 210
GAITHERSBURG, MD 20879

Customer ID: **332923**
Certificate: **51-R-0100**
Site: 002
VRL MARYLAND LLC

Type: ROUTINE INSPECTION
Date: 18-OCT-2023

2.31(c)(3)

Institutional Animal Care and Use Committee (IACUC).

The IACUC conducted the May 2023 semi-annual program review and inspection. However, there is no documentation that the IACUC prepared, reviewed, and submitted a report of the Committee's evaluations to the Institutional Official, as required by paragraph (c)(1) and (c)(2) of this section.

Per this section of the AWA Regulations, the IACUC is responsible for preparing reports of their semi-annual evaluations, and reviewing and submitting the report to the Institutional Official at least once every 6 months. The IACUC must prepare and review a report from the May 2023 evaluations, obtaining the signatures of the majority of the members, and submit to the Institutional Official to ensure compliance with the AWA regulations and standards. Correct at the November 2023 IACUC meeting and with subsequent semi-annual evaluations.

2.38(l)(1)

Miscellaneous.

The registrant has not developed and implemented a contingency plan for the research facility. A written contingency plan is necessary to provide for the humane handling, treatment, transportation, housing and care of the animals in the event of an emergency or disaster which could reasonably be anticipated and expected to be detrimental to the health and well-being of the animals. The facility must develop a written contingency plan and train current personnel within 60 days of implementation. Correct by December 15, 2023

This inspection and exit interview were conducted with the facility representatives.

No regulated species were present for this inspection.

Information on the contingency plan and the APHIS Form 7093 was provided to the registrant.
