Atlanta, GA 30329

Customer ID: **896**
Certificate: **57-B-0157**
Site: 002
YERKES PRIMATE
CENTER/FIELD STATION

Type: RE-LICENSE INSPECTION
Date: 23-AUG-2022

3.84(d)

Cleaning, sanitization, housekeeping, and pest control.

There was an excessive amount of live cockroaches in the indoor portion of the M2-A and M2-B compounds housing rhesus macaques. The walls were lined with a white glossy panel, leaving approximately the top foot of wall connected to the ceiling exposed. The cockroaches were mainly in clusters of varying sizes in corners and nooks throughout the exposed section. Numerous cockroaches were also seen walking along the top of the panels. Insect pests can lead to the spread of disease and can contaminate food as well as water supplies. A safe and effective program for the control of insects, ectoparasites, avian and mammalian pests must be established and maintained. Correct by September 23, 2022.

This is a 1st Re-License Inspection for a Class "B" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by October 23, 2022 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
