2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The facility employs a part-time attending veterinarian that makes regular visits to the facility but there was no written program of veterinary care available for review.

Failure to document a written program of veterinary care does not allow inspectors to identify the attending veterinarian, the frequency of the veterinarian visits, and the attending veterinarian's recommendations on animal health issues and prevention and can result in failure to address health conditions in the animals in an appropriate manner.

A written program of veterinary care is required for exhibitors who employ a part-time attending veterinarian under formal arrangements.

3.125(a)

Facilities, general.

The wire enclosure housing 4 prevost's squirrels had several areas of flaking and peeling rust.

Rust can create sharp surfaces that may cause injury or discomfort to the animals and cannot be adequately cleaned and sanitized.

The housing facilities must be maintained in good repair to protect the animals from injury.
