Paleontological Research Institution  
1420 Taughannock Blvd.  
Ithaca, NY 14850

Customer ID: **329831**

Certificate: **21-C-0414**

Site: 001

Cayuga Nature Center Inc

Type: ROUTINE INSPECTION

Date: 16-JUL-2024

---

### 3.131(a)

#### Sanitation.

The squirrel enclosure has an accumulation of food and fecal debris that needs to be removed more frequently from the primary enclosure. Currently the enclosure is only being cleaned once a month which is not enough to reduce odors, minimize hazards such as diseases and feeding of pests. This enclosure needs to be cleaned on a more frequent basis to reduce this accumulation for the health of the squirrel.

Correct by: July 23, 2024

This inspection and exit interview were conducted with a facility representative.
