Sherry Pietilainen
19202 E Via De Palmas
Queen Creek, AZ 85142

Customer ID: **328164**
Certificate: **86-C-0113**
Site: 001
SHERRY PIETILAINEN

Type: ROUTINE INSPECTION
Date: 20-AUG-2015

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

***The written Program of Veterinary Care (PVC) on file is incomplete. Sections 1, 3 and 4 of APHIS form 7002 have not been completely filled out. The PVC is a written agreement between the exhibitor and the attending veterinarian establishing standards of care for the animals. Failure to have a complete PVC could jeopardize the health and well-being of the animals. The facility should establish and maintain a PVC to include all the regulated animals at the facility and regularly scheduled visits to the premises.

To be corrected by 9/14/15

3.50(a)

FACILITIES, GENERAL.

***The coroplast lining in the rabbit enclosures is chewed at the edges and overly soiled throughout. Failure to maintain facilities, including enclosures, poses a risk of injury to the animals. Additionally, an overly soiled material does not allow for adequate cleaning/sanitization of the enclosure. Housing facilities for rabbits shall be structurally sound and shall be maintained in good repair, to protect the animals from injury, to contain the animals, and to restrict the entrance of other animals.

To be corrected by 9/21/15

3.125(a)

FACILITIES, GENERAL.

***The shade cloth in the capybara enclosure was torn with frayed edges with long strands of the fibers accessible to the animal. The frayed strands pose a risk to this animal for ingestion and intestinal obstruction. The affected structures must be repaired or replaced. Housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals.

To be corrected by 8/22/15.

Inspection and exit briefing were conducted on-site with the owners.
