#### ENVIRONMENT ENHANCEMENT TO PROMOTE PSYCHOLOGICAL WELL-BEING.

Since the last inspection, two non-human primates were obtained. There is no written, Attending Veterinarian approved, plan for environmental enhancement adequate to promote the psychological well-being of these non-human primates. A plan needs to be developed and followed which address the social needs and environmental enrichment needs of these non-human primates. The plan is to be in accordance with currently accepted professional standards as cited in appropriate professional journals or reference guides, and as directed by the Attending Veterinarian. To be corrected by 12-3-16.

### 3.127(d)

#### FACILITIES, OUTDOOR.

The licensee has a 9-3-14 perimeter fence variance for a camel, a zebra, and similar non-dangerous hoof stock. The variance is for an enclosed front pasture along the road. During this inspection, a new zebra was found grazing inside the six foot perimeter fence for the exotic animal enclosures. The older zebra who was in with the camel was sold. For the new zebra to be housed where it is, a perimeter fence addition needs to be requested and approved. To be corrected by 12-3-16.

This inspection and exit interview were conducted with owners.
