Certificate: **55-C-0318**
Site: 001
Inman Farms Inc.

Type: ROUTINE INSPECTION
Date: 31-MAR-2023

2.1(b)(2)(ii)

Requirements and application

The licensee has acquired a black-handed spider monkey but their license does not authorize possession of this species, which is a Group 6 non-human primate. Not acquiring the correct license designations prior to obtaining restricted animal species can result in animals being held by unauthorized and perhaps untrained personnel for the species. Per the regulations, licenses authorize the use of animals subject to subparts A through F in part 3 of this subchapter, except that, for animals subject to subparts D and F, licenses must specifically authorize the use of each of the following groups of animals: Group 5 (baboons and nonbrachiating species larger than 33 lbs.) and Group 6 (great apes over 55 lbs. and brachiating species) nonhuman primates; exotic and wild felids (including but not limited to lions, tigers, leopards, cheetahs, jaguars, cougars, lynx, servals, bobcats, and caracals, and any hybrid cross thereof); hyenas and/or exotic and wild canids (including but not limited to wolves, coyotes, foxes, and jackals); bears; and mega-herbivores (including but not limited to elephants, rhinoceroses, hippopotamuses, and giraffes). A licensee must obtain a new license before using any animal beyond those types or numbers of animals authorized under the existing license. Correct by July 1, 2023.

This inspection and exit interview were conducted with the facility representative.
