DAROLD JAY HEADINGS

Type: ROUTINE INSPECTION

Date: 03-NOV-2015

3.4(b)

OUTDOOR HOUSING FACILITIES.

****In an outdoor enclosure, containing 4 adult dachshund, the barrel type shelters are not large enough to contain all animals comfortably at the same time. These barrel type shelter structures are not large enough for all of the dogs in this enclosure to be provided with shelter that allows them to sit, stand, lie and turn freely in a normal manner. Adequate housing is important to provide all the dogs with protection from the effects of the wind, rain or snow. The temperatures at this time of year are decreasing, making the housing even more important. The licensee must ensure that the shelter structures are large enough to allow each animal in the shelter structure to sit, stand, and lie in a normal manner, and to turn about freely.

To be corrected by: November 7, 2015

Inspection and exit interview conducted with facility representative by Katy Vernon ACI and Bill Heine ACI.
