Type: ROUTINE INSPECTION  
Date: 07-MAY-2014

### 2.40(a)(1)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Licensee has a new attending veterinarian. A current written program of veterinary care must be completed, and approved by the licensee and the attending veterinarian.

CORRECT BY 6-15-14

### 3.125(a)

#### FACILITIES, GENERAL.

- Sheep pen: Wire mesh is torn, and has bent ends, extending into animal area.
- Goat pen: Bent and torn chicken wire is present around a dead tree in the animal area.
- Pig pen: A loose board is present, with nails exposed (above the level of the animals).
- Nubian goat pen: Wire mesh is torn, and has bent ends, extending into animal area.

A program must be in place to ensure that enclosures are structurally sound and maintained in good repair, to contain the animals and to protect the animals from injury.

CORRECT BY: 6-15-14

### 3.131(d)

#### SANITATION.

Stall areas have numerous flies present, including on animals. A program of pest control must be established and maintained. No fly control measures currently in place.

CORRECT BY: 5-25-14

Exit interview conducted with facility personnel.
