SANITATION.

In the food storage area there were droppings observed in the far corner of the room. A mouse trap was noted in the room, however it was not set at the time of inspection. Pests can spread disease, contaminate food and can be harmful to the health of the animals. An effective pest control program must be maintained in order to control pests in the facility.

*****Correct by June 4, 2015

An exit briefing was conducted with the facility representative.
