Type: ROUTINE INSPECTION
Date: 16-FEB-2022

3.13(a)

Veterinary care for dogs.

The program of vet care describes how to perform a surgical procedure for tail docking. The licensee told the inspector that he is not following the procedures as described in the program of veterinary care. The program of veterinary care does not detail testing for internal parasites as described in this section. The program of veterinary care does not describe preventive care and treatment to ensure healthy haircoats nails, skin, eyes, and clean ears. The program of veterinary care must include all information detailed in this section. The program of veterinary care is a required document that APHIS inspectors use to determine the quality of veterinary care for the animals at a facility. This document must be followed by the licensee to ensure adequate care and treatment of the animals. All schedules, treatments, and procedures listed in the program of veterinary care must be followed by the licensee.

Correct by: March 2, 2022

3.13(b)

Veterinary care for dogs.

The licensee does not have medical records as described in this section. It is required that all preventions, vaccinations, treatments, and testing be recorded in the animal's medical record. This information is needed for APHIS inspectors to
