MIRIAM AND CATHERINE NISLEY

Type: ROUTINE INSPECTION
Date: 15-JUN-2017

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Female boxer "Star" has a tick over her right eye and a large, engorged tick on the right side of her neck near her collar. The facility representative had not noticed the ticks and did not know the last time the dog had received the treatment/preventative for ticks that is approved in the Program of Veterinary Care. Ticks can harbor and transfer diseases which could be detrimental to the health of the dogs.

The licensee must treat this dog for ticks with the treatment/preventative that is approved by the attending veterinarian in the Program of Veterinary Care. The licensee must ensure that the dogs remain free of ticks and other pests at all times in order to promote their health and well-being.

To be corrected by: End of business June 15, 2017

Inspection and exit interview conducted with Kelly Maxwell, ACI and the facility representative.

Prepared By: MAXWELL KELLY, A C I USDA, APHIS, Animal Care
