Environment enhancement to promote psychological well-being.

At the time of inspection the environmental enhancement program was not available for inspection. An environmental enhancement plan that documents the appropriate provisions to provide enrichment and special considerations (such as single-housed non-human primates and infants) must be directed by the attending veterinarian and available for inspection. This is necessary to ensure the psychological well-being of the animals. Ensure that a documented plan for environmental enrichment that addresses the required elements is maintained and available for inspection.

This inspection and exit interview were conducted with a facility representative.
