DISNEYS ANIMAL KINGDOM

Type: ROUTINE INSPECTION

Date: 31-JUL-2017

3.75(e)

HOUSING FACILITIES, GENERAL.

Fecal samples were being placed in the outside lion tail macaque food freezer.

This placement of fecal samples in a freezer intended to hold animal food does not prevent contamination of that food.

Correct by August 4, 2017

3.125(a)

FACILITIES, GENERAL.

The following areas have peeled and currently flaking paint on several areas of the ceilings of the following animal holding areas: Hippo barn # 5 & 6, rhino barn # 4, rhino holding yard, elephant barn, giraffe barn, eland barn, warthog holding, zebra holding, white rhino holding, waterbuck holding, bontebok holding, & wallaby/muntjac holding. All of these structures have galvanized metal ceilings in which the paint does not appear to hold onto the galvanized metal.

These flaking paint chips eventually fall to the ground and may fall into the food or in the water and be subsequently ingested by these animals before they are observed and removed by the animal care staff.

Each animal area must be constructed of such materials as appropriate and maintained in good repair to protect the animals from injury

Correct by September 30, 2017

3.129(a)

FEEDING.

Bales of hay were on carts in close proximity to the front two elephants barn holding enclosures. These bales of hay were intended to later be fed to the elephants at a later time. During the time of the inspection of this area, the

Inspection Report

elephant barn was being cleaned with high pressure hoses. The spray of the water coming off the ground from these machine(s) was getting onto a portion of some of these bales of hay making them wet and contaminated with waste washing water, detergents, &/or dirt from the floor.

This process does not assure wholesomeness, or minimize contamination of the feed. The hay shall be place in another area that does not get wet during the cleaning process.

Correct by August 4, 2017

This inspection was performed on July 31, 2017 to August 3, 2017.

This inspection was conducted with various management staff, & area keepers. The exit interview was conducted with the Director.
