Customer ID: **6003482**

Certificate: **42-C-0241**

Site: 001

Wildthunder Wildlife Animal Rehab
Sanctuary

Type: ROUTINE INSPECTION

Date: 16-MAY-2024

3.125(a)

Facilities, general.

The facility has a newly built bobcat enclosure with sharp points present in the safety containment area. The wire used for the caging walls is 1 inch by 2 inch wire with cut sections of the paneling leaving approximate 1 inch pieces of wire protruding into the enclosure. There is also a screw sticking out from a wooden perch area in the safety containment area. The facility closed off access to this part of the enclosure during the inspection until the sharp points can be removed. Sharp points may cause injury to the animals. The indoor and outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals.
To be corrected by 30-May-2024

3.154

Environment enhancement to promote psychological well-being.

The facility does not have a written environment enhancement plan for birds at the time of inspection. Dealers, exhibitors, and research facilities must develop, document, and follow a species-appropriate plan for environment enhancement adequate to promote the physical and psychological well-being of birds. The plan, at a minimum, must address each of the following: social grouping, environmental enrichment, and special considerations. The plan must be approved by the attending veterinarian and must be in accordance with the regulations in this subpart and with currently accepted professional standards as cited in appropriate professional journals or reference guides. This plan must be made available to APHIS upon request.
To be corrected by: 13-June-2024

This inspection and exit interview were conducted with a facility representative.
