Type: ROUTINE INSPECTION
Date: 11-MAR-2015

3.1(c)(3) REPEAT

HOUSING FACILITIES, GENERAL.

Cleaning.

Five outdoor enclosures have more than a days worth of feces on the floor surface affecting seven dogs. The licensee stated the pens were last cleaned out on Monday (March 9, 2015). Not cleaning and removing the animal waste daily can create disease hazards and affect the health and well-being of the dogs. All of the outdoor enclosures must be spot cleaned daily to remove excreta, soiled bedding, food waste, hair, etc. from the floor, wire fencing, and inside of shelters.

This is a focused inspection to address the direct non-compliant item 2.40 (b)(2) and direct non-compliant item 3.1 (c)(3) listed on the March 3, 2015 inspection report. The direct non-compliant item 2.40 (b)(2) has been corrected.

Exit interview conducted with licensee.
