

Inspection Report

City Of Manhattan
2333 Oak St
Manhattan, KS 66502

Customer ID: 4086
Certificate: 48-C-0012
Site: 001
City of Manhattan

Type: ROUTINE INSPECTION
Date: 22-AUG-2016

3.127(d)

FACILITIES, OUTDOOR.

There are areas by the perimeter fence where eroded dirt has resettled next to the fence resulting in a height measured on the inside of the fence of less than 8 feet. The following sections of perimeter fence were found to be less than 8 feet high: behind the commissary was 7 feet 5 inches high; near the hay barn was 7 feet high; near the old gate by Poliska Lane was 7 feet 7 inches, and along the south fence was 7 feet 6 inches. Also, there were three places along the west and south sides of the perimeter fence with gaps at the base of the fence that show evidence of animal activity through the gap. Perimeter fences with gaps at the base or of insufficient height can allow unauthorized people and animals access through or under the fence and may not function as secondary containment for animals inside the facility. Given the types of animals present, this facility must ensure that the perimeter fence is at least 8 feet high in all places. The perimeter fence must be constructed so that it protects the animals in the facility by restricting animals and unauthorized persons from going through it or under it and having contact with the animals in the facility and so that it can function as a secondary containment system for the animals in the facility. To be corrected by 23 November 2016.

The inspector completed this inspection report when Animal Care was transitioning to a new information management system. Because the inspector re-typed the inspection report into the new system when it was deployed, the "prepared by" date on this inspection report is different than the date the inspector prepared the original inspection report, which occurred on 23 August 2016.

This inspection and exit interview were conducted with facility representatives.

Additional Inspectors

Lundy Kendall, Animal Care Inspector

Prepared By: MARGARET SHAVER, D V M USDA, APHIS, Animal Care

Date:
13-SEP-2016

Title: VETERINARY MEDICAL OFFICER 6034
