Type: ROUTINE INSPECTION
Date: 21-APR-2016

2.40(b)(3)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

***In the adult sheltered facility there was an adult French Bulldog identified as Zelda that had a red raised area in between the outer digits of the back right foot. The facility representative stated that there were veterinarian instructions for this issue in the paperwork, yet this problem had not been observed on this dog prior to the time of inspection. During the inspection of the paperwork, the instructions by the attending veterinarian were located. Supplies for treatment were on hand and the facility representative stated that treatment would begin today. Lack of observation can lead to worsening of medical conditions or injuries. The licensee must provide treatment to this dog according to the veterinarian's instructions and assure that all of the dogs are observed daily as required. To be corrected from this day April 21, 2016 forward.

This inspection began at 1036.

The inspection and exit conference were conducted with the facility representative, Bill Heine, ACI and Bev Hicks, ACI.

End of report.
