BARBARA HUBNER & LORIE HUNT HEATON

Type: ROUTINE INSPECTION

Date: 04-OCT-2016

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Multiple medications were found to be expired. Epi-Otic expired 5/2016, a bottle of vetericyn expired 7/2016, another bottle expired 03/14, and a bottle of Oti Soothe expired 08/2016. Expired medications doesn't ensure that the product given to the animal is safe and of a high quality. The expired medications could be ineffective or toxic to the animals. Expired medications must not be used on regulated animals and need to be disposed of. Correct immediately.

2.50(a)(2)

TIME AND METHOD OF IDENTIFICATION.

Three enclosures containing a total of eight weaned puppies didn't have identification. Lack of identification doesn't allow for the animals to be easily identified. Provide identification for all weaned puppies with an official tag or a plastic-type collar or cage card attached to the enclosure containing the information required on an official tag. Correct immediately.

3.6(c)(1)(i)

PRIMARY ENCLOSURES.

An enclosure containing 4 weaned puppies did not provide the minimum amount of required floor space. The enclosure measured 36 inches by 30 inches for a total of 1,080 square inches. Three of the puppies measured 11 inches and one measured 10 inches. Together they require 1,123 square inches. The enclosure is 43 inches too small. Inadequate space may affect their comfort and limit the opportunity for exercise. The puppies must be moved to a larger enclosure that provides the minimum required floor space or if maintained in the same enclosure, must be divided amongst another enclosure to meet the space requirements. Correct immediately.

This inspection and exit interview were conducted with the licensee.

End of report.
