Date: 02-OCT-2014

3.129(b)

FEEDING.

In the cow enclosure, hay is placed in a rack inside the shelter. The rack has a mild-moderate amount of bird droppings on it. The hay could become contaminated with bird droppings and pose a health risk to the young cows in that enclosure. The facility must ensure that food receptacles are placed so as to minimize contamination and are kept clean and sanitary at all times.

Correct by 10-Oct-2014.

An exit briefing was conducted with the Manager.

This is an electronic duplicate of a handwritten report.
