3.26(d)

FACILITIES, INDOOR.

*** The wire mesh enclosures with wood base frames for the guinea pigs needs to be addressed. The wood is no longer sealed and impervious to moisture and cannot be readily cleaned and sanitized. In addition the wire mesh is showing signs of rust throughout the wire mesh. Once this wire is rusted, it also is no longer impervious to moisture. These enclosures needs to be addressed to provide interior surfaces that can be readily cleaned and sanitized.
