Scandia, MN 55073

Customer ID: **27809**
Certificate: **41-B-0238**
Site: 001
COCK A DOODLE ZOO

Type: ROUTINE INSPECTION
Date: 14-JUL-2016

2.126(a)(2)

ACCESS AND INSPECTION OF RECORDS AND PROPERTY; SUBMISSION OF ITINERARIES.

The Program of Veterinary Care, Acquisition & Disposition records, and the inventory were not available for review at the time of inspection. Lack of required records does not allow APHIS officials to accurately track animals as necessary. It also does not allow personnel access to the Program of Veterinary Care in event of an emergency. Ensure all records are available for review by APHIS Officials during business hours. Correct by 7/15/16.

2.131(d)(2)

HANDLING OF ANIMALS.

During exhibition only one attendant was readily identifiable by a logo sweatshirt. It was difficult to determine the other two attendants from members of the public. Without attendants that are readily identifiable it cannot be determined which persons are ensuring the safety of the animals and the public during public contact. Ensure all attendants are readily identifiable during times of public contact. Correct from this time forward.

3.137(e)

PRIMARY ENCLOSURES USED TO TRANSPORT LIVE ANIMALS.

"Live animal" and up arrow markings were missing from the carriers used to transport the African Porcupine, Black Buck, and the Patagonian Cavies. Markings help identify the carriers as having a live animal inside and how to properly handle the carrier. Lack of "live animal" and up arrow stickers on the carriers does not ensure that persons are handling the carriers with the animals properly to ensure their comfort and wellbeing. Ensure all carriers used to transport animals are marked with "live animal" and up arrows as required. Correct immediately.

Inspection conducted at Marketfest in White Bear Lake, MN.

Inspection and exit briefing conducted Chief Manager, Veterinary Medical Officer Dr. Debra Sime and Animal Care Inspector Kevin Wilken.
