3.2(d)

INDOOR HOUSING FACILITIES.

A portion of the interior flooring of building #3 has missing floor tile. Two to Four feet of this flooring in the sheltered/indoor housing shelter (building #3) is not impervious to moisture. These areas need to be impervious, in order for good cleaning and sanitizing to take place. Impervious surfaces with good cleaning and sanitizing will help this facility to be a healthier environment for dogs. The facility owner must repair/correct this un-impervious section or sections of this floor.
Correct by 09-06-2014.

This inspection and exit briefing were conducted with the owner.
