Type: ROUTINE INSPECTION  
Date: 08-DEC-2018

### 2.131(d)(2)

#### HANDLING OF ANIMALS.

When I arrived at the exhibit location a 10' by 10' chain link enclosure with one reindeer and one alpaca was set up in the parking lot. There were patrons of the restaurant touching the reindeer and the licensee nor any attendants were present. I went into the restaurant and the licensee approached me. I stated that an attendant must be present at all times when public contact with animals is allowed. The licensee stated that he had been in the restaurant for 15 minutes.

A responsible, knowledgeable, and readily identifiable employee or attendant must be present at all times during periods of public contact.

Either the licensee or a knowledgeable and identifiable employee must be present when the public can have contact with animals. This is to prevent injury to the public and to the animals.

To be corrected from this day forward.

### 3.133

#### SEPARATION.

The licensee has a reindeer and an alpaca in a 10' by 10' chain link enclosure. The reindeer is running the alpaca around the enclosure with its antlers. The reindeer is also standing on its hind legs and hitting the alpaca with its front hooves.

Animals housed in the same primary enclosure must be compatible.

Animals housed together must be compatible to prevent injury or death of the animals.

To be corrected from this day forward.
